Candace Triggs

Past - President:
Carolyn Wooten, CGMP

Welcome to the Louisiana Chapter of Society of Government Meeting Professionals

So you may be asking yourself, "What is the Society of Government Meeting Professionals?" SGMP is a nonprofit professional organization involved in planning government meetings, either on a full-time or part-time basis, and that supplies services to government planners. Our members represent employees of federal, state, county, and city government, as well as associations of government employees and government agencies.

During these times of budget cuts and doing more with less, it would definitely be an investment in yourself and your job to come and visit with us at one of our monthly trainings where we offer education for the government meeting planner. I invite you to attend our monthly educational trainings and discover the benefits for yourself. As a planner, you can attend your first meeting at no cost.

Education, resources, and networking are the backbone of SGMP's mission "to enhance and promote the expertise of government meeting professionals." Our monthly educational training objectives are to improve the quality of and promote the cost-effectiveness of government meetings by improving the knowledge and expertise of individuals in the planning and management of government meetings through education, training, and industry relationships.

Please take some time and browse through our website. Should you have any questions, please contact me or any one of our board members and we will be glad to answer any questions you may have.
